organization unit? NO NCISA shall identify your IS or CS as a CII by issuing a measure of general nature According to Section 2, letter b) of Act No 181/ 2014 Coll., your CS or IS shall become an element of critical information infrastructure. NCISA shall submit a proposal to the Ministry of the Interior to put your IS or CS on the list which shall be subsequently submitted to the government of the Czech Republic. The government of the Czech Republic shall decide in the form of a resolution and identify the proposed IS or CS as an element of CI in the Annex to that resolution. According to Section 2, letter b) of Act No 181/2014 Coll., your CS or

IS shall become an element of critical

information infrastructure.

version 2.0. March 2018

Note:

More information about the processes of the identification, including the

NCISA shall cooperate with the concerned entities within the process of the determination of the critical information infrastructure (CII), even before the identification itself. The identification then shall be done after bilateral discussions. For state organizational units, the idenfitication of CII elements is done by issuing the resolution of the government of the Czech Republic. For public authorities or legal or natural persons which are not state organizational units, the identification is done by issuing a measure of general nature (MGN) which is issued by NCISA. NCISA is available for potential discussions and for the provision of methodological help in the process of the assessment of fulfilling the determinative criteria.
